103 1963 TROJAN 200 CABIN CRUISER 1963 TROJAN 200 CABIN CRUISER REGISTRATION NUMBER: 548 THN CHASSIS NUMBER: SAB 11049 ENGINE NUMBER: 3-1077 Originally blue. Restored in 1990 and repainted Primrose Yellow, it was featured in an edition of Practical Classics magazine later that year. When the previous owner purchased the Trojan in 1998 it was in good mechanical condition but needed a re-trim and a fresh coat of paint. It was decided to completely restore the car in the same colour, using original seat trim materials but adding Wilton carpet instead of the standard rubber mat. A Trojan specialist rebuilt the engine and gearbox.

Since that time '548 THN' has won many awards including 'Best in Show' for three consecutive years at the Bristol Microcar Rally. In 2004 she won her class on the Concours stand at the Meguiar's International Classic Car Show, held at Alexander Palace. This event was open to all types of motor cars, not just microcars, and 2004 was the first time that a microcar had won in open competition. There have also been many appearances in magazines, books and even a 'Formula 1' cartoon by Jim Bamber in his book 'Pits 7'.

Comes with an extensive portfolio of photographs, bills, MoT certificates, tax discs and other memorabilia. In superb condition.

- 107 A VERY RARE 1999 LAND ROVER DEFENDER 90  
WINTERISED, WATERPROOF WOLF FFR HARDTOP A  
VERY RARE 1999 LAND ROVER DEFENDER 90  
WINTERISED, WATERPROOF WOLF FFR HARDTOP made  
for use as a landing craft for the Royal Marines. This is a high-  
spec version of the Wolf that was made to operate at extreme  
temperatures as low as minus 46°C & is capable of a wading  
depth of 1.5m.  
Fitted with its original 2.5L 300TDI engine, raised air intake  
with breather, and Webasto heater running three radiators, two  
in the rear tub and one under the front passenger seat. This  
model benefits from the heavy-duty chassis and axles, front &  
rear disc brakes, power steering & thermal insulation. This has  
also had the REMUS upgrade which included full Dinitrol  
chassis treatment, sound deadening flooring & a full internal  
roll cage.  
The removable fibreglass hardtop is fitted with an escape  
hatch, ski rack & side-mounted spare wheel. This model was  
originally fitted out as a radio vehicle (FFR) but was converted  
to a personnel carrier having twin bench seats fitted making it  
a more practical 6-seater variant.  
The Hardtop Winter Wader is said to be the rarest of all the  
Wolf variants with only approximately 50 being produced.  
This model will be 25 years old in 2024 and as it has its  
original engine unlike others that have come on the market, it  
will be eligible for export to the USA, a market where they are  
very sought after.
